Register

1. Design the above layout
2. Give Validation messages whenever any field is empty( Refer Validation in Bootstrap).
3. If Passwords doesn't match, show validation message
4. Password should satisfy the following rules , otherwise throw validation message.
  - a. Length should be between 8 and 14 characters.

- b. Should have atleast one special character
  - c. Should have atleast one Capital Letter and one number.
5. If User clicks on Register , show the preview page with all the entered information. All Input fields should be shown as labels. Show two buttons on the preview page, Edit and Save.
  6. If User hits Edit, show the same form with the user entered data populated in the fields.
  7. If User hits Save, show "Thank you" Message. Design it in your own way.
